

Jakob Reinhart

Systemic Consultant for Leadership Teams After Decisions

DBVC & IOBC certified

When new strategies, structures, or responsibilities meet reality, I help leadership teams create clarity between intention and reality.

Not with methodology packages.

But with the ability to see what specifically needs to be clarified so that implementation holds.

Twenty years in the film industry taught me one thing:
A screenplay is not yet a film.

Systemic consulting meets film dramaturgy.

Not as a gimmick. As a mindset.

Areas of Focus
